Project #4

Concept-Hinduism Exhibition

Even though I major in European Culture,
I am also fairly interested in Asian culture.
This time I designed this exhibition to be
Saturated with the smell and mood of Hinduism. Imagine you
are a visitor to this
Exhibition. The moment you step in,
You will have spiritual experience.

Keys

Q to zoom out

E to zoom in

Mouse position to move point light

Difficulties

This time the code was rather simple.
I used some for loops, some counters and some
Classes.
